input.1p

Java

```java
package q10801;

public class PrintHello {
    public static void main(String[] args) {
        String text1 = "He";
        String text2 = "llo";
        String text3 = text1 + text2;
        String text4 = ", I am learning Java";
        String text5 = text3 + text4;

        System.out.println("text5 = " + text5);
    }
}

```
